

Summer 2 Curriculum News for F2

An Adventure Awaits!

Our topic will take us on a sea quest, mermaids and pirates await us all whilst looking forward and preparing for our big adventure – moving to Year 1

Understanding the World

Our learning this term will look at the 5 great Oceans of the world. We will explore different states of water and experiment with objects that float and sink. We will delve into the deep and look at oceans as a habitat and finally take a look at the water cycle. We will touch upon maps; looking at what they show us and making our own.

Maths

We will consolidate our learning on key concepts ready for year 1; bonds to 5 and 10, doubles, grouping, odds and evens. Towards the end of the term we will revisit measurement using a ruler.

Literacy

This term we will have a strong focus on independent sentence writing to prepare the children for work in Year 1. There will be more opportunities for the children to develop and build their confidence with simple sentence writing in the afternoons as well as our usual Literacy lessons twice weekly. F2 will be looking at letters using the book 'Dear Greenpeace' and using their new skills to write letters to their new teachers.

PHSE

Through our Jigsaw scheme, this term will be all about 'Changing Me'. Topics of discussion will include being able to name body parts, keeping our bodies healthy, things we are good at and things we are looking forward to in year 1. We will be investigating our new classes, meeting new friends and building relationships with new members of staff. Our aim is for all children to join Year 1 confidently and comfortably in their new environment.

Physical Development

Our P.E. specialists USports will be teaching Athletics in our Thursday P.E. slot. The children are able to spend much more time outside now the weather is fairer and they will make use of the large climbing equipment to build gross motor strength. We will use our Thursday afternoons to also explore different games in P.E with the class teachers.

Expressive Art and Design

Through Art this term the children will be flexing their creativity as they use junk modelling to build pirate ships, create their own treasure maps and design their own ship flags.

- Please name uniform
- P.E. is on Thursdays

Dates to Remember:

Tuesday 11th June

- Class Photos

Saturday 22nd June

- Summer Fair

Monday 8th July

- Sports Day

Donations welcome:

- Small world characters and houses (e.g. Happy Land)
- Children's magazines and Annuals (in good condition)
